

Cape Argus Pick n Pay MTB Challenge 2012 - Saturday

Routes, descriptions and profiles

29km

Last year's 25km route gets a slight upgrade with additional climbing in the first 5km with a few rocky descents and corners, certainly a much more challenging start than last year!

At the 7km mark the route rejoins last year's route and riders follow jeep tracks through the prized Angus cattle camps. At the 15km mark, riders split from the 13km riders and cross the Dwarsrivier for a spin around the north eastern sections of the estate offering fynbos sections as well as the scenic dams in this area. Here riders will encounter easy singletrack sections and negotiate a river bed or two.

This ride is considered easy and perfect for those looking for a fun mountain bike outing without the exertion and strenuous climbs of the longer rides on Sunday.

Total Elevation: 430m
